Claims Allowed

Claims 1-17 are allowable over the prior art of record. The claims are allowable because the prior art does not anticipate nor render obvious the invention of an eight speed planetary transmission with three planetary gear sets, each having at least three elements, an input shaft continuously connected to one element of one of the gear sets, an output shaft continuously connected to another element of one of the gear sets, and yet another element of one of the gear sets being continuously connected to a stationary member of the transmission, the transmission also having seven torque transmitting elements engageable in groups of two to establish the eight forward speeds and one reverse speed for the transmission.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Discussed

The examiner has considered the references cited by applicant in his Information Disclosure Statement filed concurrently with the application. None of the references show all of the features of the claimed invention. Hayabuchi '287 is the closest of the ones cited, but only has six torque transmitting devices instead of the required seven.

The references cited by the examiner are deemed pertinent to applicant's disclosure. None of the references show all of the features of the claimed invention. The feature that was found lacking in the prior art was the combination as claimed including seven torque transmitting devices. All of the references cited show all of the other features of the claimed invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dirk Wright whose telephone number is 571-272-7098. The examiner can normally be reached on Monday through Friday, 8AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
